

# BOARD'S REPORT

## Dear Members,

Your Company's Directors are delighted to present their Ninth Report together with the Audited Financial Statements of Summit Digitel Infrastructure Private Limited [formerly known as Reliance Jio Infratel Private Limited] ("Company/Summit/SDIPL") for the financial year ended March 31, 2022 ("year under review/FY2021-22").

## Economic Overview

### Global Economy

Even amidst decelerated global growth, 2021 was a year in which we saw mobile network technology advancements taking centre stage across the globe.

As the world enters the third year of the COVID-19 crisis, economic developments have been both encouraging and troubling, marred by risk and uncertainty. The good news is that output in many countries rebounded in 2021, after a sharp decline

in 2020. Both advanced and middle-income economies have attained substantial vaccination rates. International trade has picked up and high commodity prices are benefiting many developing countries. Domestic financial crisis and foreign debt restructurings have been less frequent than what was expected in a time of severe global shocks.

Risks to the global baseline are tilted to the downside. The emergence of new COVID-19 variants could prolong the pandemic and induce renewed economic disruptions. Moreover, supply chain disruptions, energy price volatility and localised wage pressures mean uncertainty around inflation and policy paths is high.

The war in Ukraine comes at a time when some countries are moving past the acute phase of the pandemic and the global economy is just recovering. As central banks fight persistent and widespread inflation and rising debt vulnerabilities, multilateral efforts to respond to the humanitarian crisis and end of the pandemic remain essential.

## Indian Economy

A positive business environment, robust industrial output and rapid vaccination coverage have provided a strong momentum for the growth of India's economy.

Between October and December 2021 (Q3 FY2021–22), Gross Domestic Product (“GDP”) grew by ~5.4%, slower than the estimated. Growth in the July–September quarter was revised up to ~8.4%, which explains the fading recovery in the subsequent quarter. The uneven (modest, at best) recovery in few sectors, especially agricultural, manufacturing and contact-intensive services sectors, weighed on the overall growth.

GDP growth is projected to range between 7.5% and 8.0% in FY2022–23.\*\*

There was a visible growth in credit uptake in FY2021-22, with agricultural and industrial sectors and personal loans driving the uptick. Banks and Non-Banking Financial Companies (“NBFCs”) have healthier balance sheets and provisions compared to the levels seen in 2018.

The successful macroeconomic management of the COVID-19 pandemic has resulted in a strong recovery of India's economy because of which the country is in a better position to face the economic fallout of the current Ukrainian crisis.

The telecom industry globally is a critical economic multiplier that cuts across all industries and is the base of all new-age communications and connectivity. The Indian telecom sector is, by far, the world's second-largest telecommunications market. The rating agency, ICRA Limited, has revised the telecom sector outlook from 'negative' to 'stable' as recent prepaid tariff hikes taken by the big 3 operators - on the back of the reforms package - are likely to boost industry Average Revenue Per User (ARPU) levels and also shore up telco profits. Improving investment outlook with private investment, particularly manufacturing, benefiting from the Production-Linked Incentive (PLI) scheme, and increases in infrastructure investment. In the Union Budget of 2022, the Government has recognised the telecom sector as an enabler of growth and employment opportunities with emphasis on nationwide 5G rollout and access of affordable services to rural and remote areas.

## Change of Registered Office of the Company and Amendment in Memorandum of the Company

During the year under review, pursuant to the approval granted by the Board of Directors of the Company in the meeting held on September 21, 2021 and shareholders at their Extra-Ordinary General Meeting held on September 22, 2021 and pursuant to the order passed by the Regional Director, Ahmedabad, approving the shifting of registered office of the Company from the 'State of Gujarat' to the 'State of Maharashtra', the registered office of SDIPL was shifted from 511, Shapath-V, Near Karnavati Club, S G Highway, Ahmedabad-380015, Gujarat to Unit 2, 9<sup>th</sup> Floor, Tower 4, Equinox Business Park, L.B.S. Marg, Kurla (W), Mumbai-400070, Maharashtra w.e.f. January 25, 2022. Accordingly, the Memorandum of Association of the Company was amended to note the change in the Registered Office.

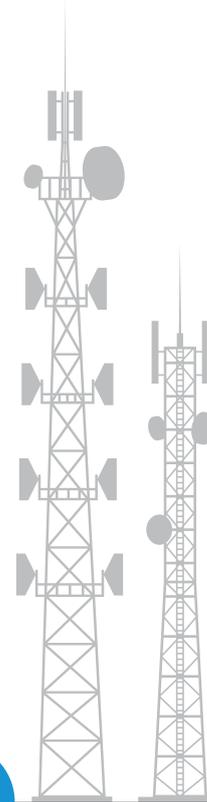

## Business and Operations of the Company

Your Company is engaged in the business of providing passive tower infrastructure and related operations and maintenance services. Summit has a nation-wide presence in all states of India. As on March 31, 2022, SDIPL operated with 1,51,594 towers.

Our main costs typically includes ground rent (which is fixed under long term contract with annual escalation) and power and fuel, all of which may be passed through to our tenants, as well as property taxes and repair and maintenance expenses. Our cell sites have generated consistent growth over last year due to the following attributes:

- 📶 Able to provide excellent operational uptime in network,
- 📶 Consistent demand to provide nationwide 4G coverage,
- 📶 Young and highly fiberised tower portfolio,
- 📶 Lowest opex, and
- 📶 High Ground Base Tower ("GBT") share of towers facilitates multi-tenancies.

SDIPL's strategic tower footprints and superior backhaul connectivity have been areas of excellence and one of the key USPs. In February 2022, the Company signed a Master Services Agreement ("MSA") to commence business with Airtel, one of the largest MNOs in the country. In addition to this, SDIPL is also exploring the opportunity to collaborate with other MNOs and various other internet service providers to open the doors for leasing on our extensive existing asset base.

The Indian telecom sector is, by far, the world's **Second-Largest** telecommunications market.

As of March 31, 2022 SDIPL operated with **1,51,594 towers.**

## Executive Overview:

Our primary business is the leasing of space on telecom sites to wireless services providers and data providers.

The following table details the number of telecom sites that we owned and operated as on March 31, 2022:

The outbreak of COVID-19 pandemic globally and in India is causing significant disturbance and slowdown of economic activity. Your Company is engaged in the business of providing tower infrastructure and related operations in India. SDIPL has executed a long-term MSA with Reliance Jio Infocomm Limited ("RJIL") (one of the largest telecommunication service provider in India) as its customer, which results into committed revenues and cash flows for SDIPL on a long-term basis. Moreover, the COVID-19 pandemic has not had a material adverse impact on the operations of the telecommunication industry, to which SDIPL currently caters to. Also, SDIPL has completed substantial portion of its planned capital expenditure and for the balance as well as for the operations and maintenance of the tower sites, SDIPL has in place long-term arrangements with experienced contractors/service providers.

Further, your Company has adequate unutilised borrowing limits available to meet the balance capital expenditure requirements to reach targeted portfolio of 1,74,451 towers. In view of the above, SDIPL does not expect any significant challenges ongoing concern, including emanating out of COVID-19, in the next 12 months.

Due to our exclusive telecom tower portfolio, our tenant lease rates vary considerably depending upon numerous factors, but not limited to type and position of tenant equipment on the tower, remaining tower capacity and tower location. We measure the remaining tower capacity by assessing several factors including tower height, tower type, environmental conditions, existing equipment on the tower and permitting regulations in effect in the jurisdiction where the tower is located. In many instances, tower capacity can be increased with relatively modest tower augmentation capital expenditures.

### We expect existing and potential new tenant demand for our telecom infrastructure will result from:

- 📶 New technologies, including 5G,
- 📶 Increased usage of mobile entertainment, mobile internet, and machine-to-machine applications,
- 📶 Adoption of other emerging and embedded wireless devices,
- 📶 Increase in smartphone penetration,
- 📶 Wireless carrier focus on expanding both network quality and capacity, including the use of towers and small cells,
- 📶 Adoption of other bandwidth-intensive applications (such as cloud services and video communications),
- 📶 Availability of additional spectrum, and
- 📶 Increased Government initiatives to support connectivity throughout India.

**Based on industry research and projections, we expect that a number of key industry trends will result in incremental revenue opportunities for us:**

- ☛ The deployment of advanced mobile technology, such as 4G and 5G, will provide higher speed data services and further enable fixed broadband. As a result, we expect that our tenants will continue deploying additional equipment across their existing networks,
- ☛ Wireless service providers compete based on the quality of their networks, which is driven by capacity and coverage. To maintain or improve their network performance as overall network usage increases, our tenants continue to deploy additional equipment across their existing sites while also adding new cell sites. We anticipate increasing network expansion over the next several years, as existing network density is anticipated to be insufficient to account for rapidly increasing levels of wireless data usage,

- ☛ Next generation technologies requiring wireless connectivity have the potential to provide incremental revenue opportunities for us. These technologies may include edge computing functionality, autonomous vehicle networks and a number of other internet-of-things, applications, as well as other potential use cases for wireless services. These technologies may create new and complementary use cases for our sites over time, although these use cases are currently in emerging stages,
- ☛ Wireless service providers continue to acquire additional spectrum, and as a result are expected to add additional sites and equipment to their networks as they seek to optimise their network configuration and utilise additional spectrum.

We believe these trends will result in incremental utilisation and interconnection demand at our infrastructure facilities.

## Information Pertaining to the Sector or Sub-sector

### 1.) Industry Overview:

Today, with data growth and the imminent launch of next gen 5G technology taking centre stage, the next decade holds exciting new prospects for tower cos. The business of tower cos is capex intensive and hence sharing these costs can significantly reduce costs to telcos/MNOs. Infrastructure sharing is effective in optimising the utilisation of available resources and helps to bring down the cost. In our experience there is substantial reduction in Total Cost of Ownership (“TCO”) due to sharing of passive infrastructure. A strong focus on optimisation of operational expenses through the outsourcing of non-core areas, process innovation, cost-to-serve alignment and strategic partnerships has also resulted in steady growth of the tower industry.

### 2.) Key Industry Developments:

#### 2.1) 5G Update:

- ☛ TRAI has slashed the base rate for mid-band 5G airwaves to attract bids from telcos. This might have a positive impact and enable them to participate in the 5G auction,
- ☛ The Telecom Minister indicated that 5G spectrum auctions will be held in 2022,
- ☛ The Department of Telecom has taken multiple initiatives across the nation to come up with 5G use cases,
- ☛ The government began the process of first 5G spectrum auction, with the Telecom Regulatory Authority of India (“TRAI”) recommending a cut of around 35% in the reserve price for 5G spectrum, and
- ☛ The Indian Government has plans for 5G testing with the help of MNOs in the following locations throughout the country: Gurugram, Bengaluru, Kolkata, Mumbai, Chandigarh, Delhi, Jamnagar, Ahmedabad, Chennai, Hyderabad, Lucknow, Pune and Gandhi Nagar.

## 2.2) Adjusted Gross Revenue Update:

FY2021-22 marked a momentous year for the Indian telecom sector. While last year's headlines were dominated by Adjusted Gross Revenue ("AGR") dues, this year heralds the news of auctions, fund raising by telecom operators and 5G readiness. In October 2019, the Supreme court of India issued a ruling regarding the definition of AGR and associated fees and charges, which was reaffirmed in March 2020, that had a material financial impact. In September 2020, the Supreme court of India defined the expected timeline of 10 years for payments owed under the ruling. In September 2021, the Government in India approved a relief package that among other things, included (i) a four year moratorium on the payment of AGR fees owed and (ii) a change in the definition of AGR on a prospective basis.

## 2.3) TRAI Consultation on Street Furniture:

Universal access to broadband is critical for the success of the Digital India programme and therefore creation of supportive Information and Communications Technology (ICT) infrastructure becomes a priority for the Government as well as the industry. TRAI in its paper has focused on various innovative approaches for infrastructure creation to promote the broadband connectivity and enhancement of broadband speed. In this regard, inter alia two important aspects have been dealt by TRAI in the paper – (a) use of street furniture for small cell and (b) the concept of deployment of aerial fiber.

## Risk Factor:

Risks related to our business strategy include the following:

- Our business depends on the demand for telecom infrastructure, driven primarily by demand for data and we may be adversely affected by any slowdown in such demand. Additionally, a reduction in the amount or change in the mix of network investment by our tenants may materially and adversely affect our business,
- If our customers consolidate their operations, exit their businesses or share site infrastructure to a significant degree, our growth, revenue and ability to generate positive cash flows could be materially and adversely affected,
- New technologies or changes in our or a customer’s business model could make our mobile tower leasing business less desirable and result in decreasing revenues and operating results, and
- Our leverage and debt service obligations may materially and adversely affect our ability to raise additional finance to fund capital expenditures, future growth and expansion initiatives and to satisfy our distribution requirements.

## Award & Recognitions:

Your Company has won awards from the World HRD Congress for “Dream Companies to work for in the Telecommunication Sector” category.

During the year, SDIPL won the “Most Innovative Deal” award by The Asset in its Annual Triple A Country Awards 2021 – South Asia, India for its USD 500 million offshore bond issuance.

## Key Company Updates:

We are cognizant of the tremendous responsibility we have undertaken of connecting people. We believe that to achieve this, we must ensure the complete well-being of every employee within our organisation. SDIPL continues its commitment to create a workplace with the target of zero-safety incidents. We continue to accentuate our business values of HSSE to build a safe workplace for each employee, contractor and partner so that they can flourish and thrive.

Your Company takes pride in having signed a MSA with one of the most important MNO - Airtel - thus securing their continued business for many years to come. By leveraging RJIL as our anchor tenant on each site and Airtel as one of the key partners, Summit has risen to the forefront of the industry.

## Operational Performance

As on March 31, 2022, our portfolio has reached 1,51,594 sites. The flow of service requests for towers is increasing across circles, with a good number of deliveries happening within Service Level Agreements ("SLAs"), including site feasibility.

There has been a marked improvement in how work is performed on the sites. In particular, performance indicators related to sites have improved significantly, namely improvement in network uptime and reduction in repeated/frequent failures. Network sustainability factor, a critical parameter for the growth and profitability of the organisation, is showing a positive trend. SDIPL places a strong focus on performance quality and improvement. As the go-to enablers of telecommunication in India, we have left no stone unturned in upgrading the functioning and efficiency of our assets.

More than 90% of SDIPL's sites have demonstrated a commendable 100% performance uptime level. To further facilitate an upward exponential trend in improvement, robust weekly and monthly operations governance mechanisms have been established with service partners and telecom operators. SDIPL believes that we are well-positioned to generate continued growth in the efficiency parameters.

Energy billing for the sharer is being done on the basis of the Fixed Energy Model (FEM) tariff card.

Site audit findings are being addressed through periodic governance meetings with partners. We are achieving optimum people productivity by delegating national/special projects.

Various special projects for incremental loading and reduction in cost for Roof Top Tower ("RTT") and GBT have been implemented. Governance mechanism has been set up with customers for reviewing the performance and taking up improvement plans to continue our journey towards operational excellence. 'Local – Vocal' initiative of automation of preventive maintenance activities has been initiated in several Indian languages, including Tamil, Telugu, Hindi and Malayalam. Focusing on health and safety activities, actions have been started to develop an online platform for granting permit to work and conduct site audits through a mobile application, for which a cross-functional team is working for third-party engagement.

## Internal Control

The Company has adequate internal financial controls commensurate with the size of the business and nature of our operations, designed to provide reasonable assurance with regard to the accuracy and completeness of the accounting records and timely preparation and provision of reliable financial statements.

## Financial Results

Our standalone financial statements have been prepared in accordance with the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 ("Ind AS").

Brief details of financial performance of the Company for the financial year ended March 31, 2022 is as under:

Revenue of the Company for FY2020-21 was ₹ 82,442 million, which has increased to ₹ 97,651 million in FY2021-22.

EBITDA of the Company for FY2020-21 was ₹ 30,770 million, which has increased to ₹ 35,304 million in FY2021-22.

During the year, SDIPL successfully raised USD 500 million through offshore bond issuance pursuant to Rule 144A and Regulation S of the US Securities Act, 1933 at coupon rate of 2.875% p.a, with bullet repayment after 10 years. The issuance was rated investment grade by global rating agencies, S&P Global Ratings (BBB-) and Fitch Ratings Limited (BBB). This is the first USD bond issuance by any telecom tower entity in India. This brings SDIPL at par with global telecom tower entities and help to diversify its borrowing avenues. For this issuance, SDIPL also won the "Most Innovative Deal" award by The Asset in its annual Triple A Country Awards 2021 – South Asia, India.

SDIPL has also raised ₹ 31,500 million from domestic capital markets in FY2021-22. These issuances were rated AAA by CRISIL Limited, ICRA Limited and Care Ratings Limited, the three domestic rating agencies.

The principal business of the Company is setting up, operating and maintaining passive tower infrastructure, related assets including related services. Accordingly, your Company has single segment as per the requirements of Ind AS 108 - Operating Segments. All assets of the Company are located in India and the revenue is earned in India, hence, there is single geographic segment.

### Dividend

Your Directors have not recommended any dividend on equity shares and non-convertible preference shares during the year. Since no dividend has been declared by the Company in past, it was not required to transfer any amount to the Investor Education and Protection Fund ("IEPF") and accordingly, no disclosures were required to be made during the FY2021-22.

### Reserves

In view of the losses incurred by your Company during the period under review, no amount is proposed to be transferred to reserves.

## Health, Security, Safety and Environment

SDIPL is committed to the principle that all occupational injuries and illnesses can be prevented and the management of HSSE has already defined the above which is an integral part of its responsibilities at all levels in the organisation.

SDIPL emphasises and considers them top priority, that employees, contractors or members of the public will not have a serious safety incident as a result of our business' operations and activities.

SDIPL has a constant focus on the identification of high-risk activities and proactive mitigation of such hazards that could lead to fatalities and/or serious permanent disabilities. This is the mantra to prevent and sustainably avert serious safety incident, while conducting business across 22 circles involving more than 22,000 subcontractor personnel everyday.

As on March 31, 2022, SDIPL has achieved 0.162 LWCFR (Lost Workday Case Frequency Rate). Unfortunately, there were two serious safety incidents during the year under review. Your Company has conducted detailed accident investigation for each incident and has completed implementation of all identified immediate corrective/preventive measures. Actions identified as medium-and long-term mitigation measures have been progressively implemented and followed up with our principal contractor.

Your Company is committed to comply with all HSSE related statutory and regulatory requirements and shall always strive to go beyond the minimum acceptable threshold of compliance with legal obligations. There were no notices nor non-compliance reports from authorities.

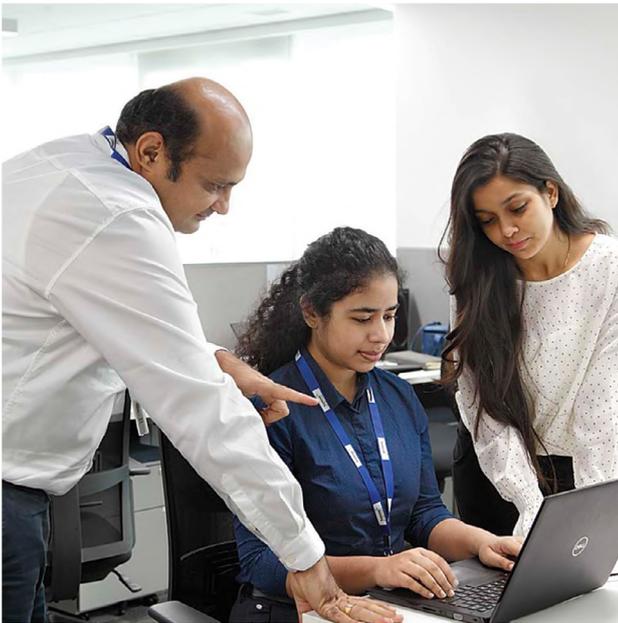

SDIPL's HSSE management system is based on the Train Audit Guide & Govern ("TAGG") strategy.

TAGG is primarily based on elements of training, auditing, guiding, governance, reporting, cross functional guidance and creation of safe work procedures which helps to sustainably implement HSSE management systems, embed improvement in performance whilst ensuring that all business-related activities remain systematic, effective and focused towards proactive reduction and mitigation of HSSE risks.

The delivery of customised learning, development and training sessions to our employees and contract workers have helped us in reinforcing key HSSE values and life-saving measures. We believe that increasing awareness on hazard identification and proactive risk mitigation will eventually build a sustained work environment that is rooted in safety. As on March 31, 2022, the Company has imparted 2,49,226 man-hours of training to our employees, contractors, and field personnel.

Focusing on high-risk mitigation, campaigns such as National Road Safety Month, World Environment Day, National Safety Week, were conducted across the country. Senior functional leaders of the Company and our prime contractor were trained on the Brookfield approach to safety and job safety planning in a series of training spread over four weeks/80 hours.

As on March 31, 2022, SDIPL's safety scorecard stood at 71%.

Your Company has launched a flagship customised employee training programme titled “Summit Safety Program (SSP)” in December 2021. With SSP, each Summit employee learns about the HSSE risks associated with his role, gets trained-assessed-certified on the required HSSE mitigation measures, thereby enabling safe work execution each and every time. As on March 31, 2022, six out of the eight courses have been delivered to all employees constituting over 1,115 manhours of training.

Your Company is continually focusing on availability, use and maintenance of compliant personal protective equipment (PPE), bikes and safety harnesses for the 12,000 strong field force under the aegis of the “Suraksha Kavach” campaign. Half yearly inspection and certification are been conducted.

SDIPL has implemented a comprehensive process of site HSSE inspection and assurance and has conducted 3,066 site inspections this year involving a 67 checkpoints pertaining to key HSSE risks checked at each site and integrated with 30 HSSE processes to systematically identify areas of improvement. Total of 16,469 unsafe acts and conditions were reported during these site inspections, of which, 13,159 (80%) have been monitored, followed up, validated and closed in a time bound manner with prime focus to implement corrective and preventive learnings across the network.

With an intent to drive proactive HSSE performance across circles, the Company has developed and launched a comprehensive safety scorecard from

October 2021. The scorecard has leading and lagging parameters which objectively ascertain clear improvement areas and activities requiring attention. As on March 31, 2022, SDIPL’s safety scorecard stood at 71%.

HSSE governance has been working efficiently within the Company and also with our contractors. Weekly, fortnightly and monthly meetings are conducted for all the key stakeholders.

We believe that every person working for or on behalf of the Company needs to return home safely each day, every day, every time. In this context, HSSE processes pertaining to road transportation, selection of new offices, onboarding sharer activities, site visits, trainings, etc. have been implemented and are audited for quality assurance.

Protection of environment and natural resources is also a key priority for SDIPL. The focus is to reduce our carbon foot print and sustainably reduce the use of diesel generators, thereby conserving resources.

A focus on employee health in the era of COVID-19 has been a key management focus area. The Company has developed and implemented a Return to Normal Operations (RNO) process to ensure safe and secure business operations across the country. Your Company has also been releasing a weekly state wise COVID Risk Rating (CRR) score (based on the positivity rate for each state) and a COVID advisory bulletin for the benefit of employees and business operations.

## Business Outlook

We expect going forward site lease revenue will continue to grow by tenant additions, as large wireless carrier-tenants continue to focus on meeting the increasing demand for data. SDIPL prides themselves on being future ready with 1,74,000 plus towers spanning the length and breadth of India, ensuring that the growing demand for these network upgradation is met. In cognizance of the global pursuit of reducing carbon footprints and becoming carbon neutral, 100% of sites are built outdoors with no air conditioned shelters. Aligned to SDIPL's HSSE values, we are committed to run a business with "Zero Harm".

In conclusion, our outlook for the business remains positive, riding on a huge upsurge in data demand and the need for a better-connected nation in the post pandemic world. The introduction of new technologies will further intensify the role of passive infrastructure players like us. SDIPL, with a nationwide presence and several industry benchmarks stands in good stead to invest and capitalise on these opportunities.

## Governance at Summit

At SDIPL, we believe that good corporate governance is the basis for an ethical and sustainable business. Your Company has adopted transparency, disclosure, accountability and ethics as its business practices. The management believes that these principles will enable us to achieve the long-term objectives and goals. Accordingly, the Company has made additional disclosures in this Report, though not mandated by law, to enable the investors to take informed investment decisions.

Your Company's Ethical Governance Framework and Practices apply to all areas and functions of SDIPL and are extended to third party vendors working with and for SDIPL. The Ethical Governance Framework at SDIPL is primarily driven by Core Governance Policies viz. Code of Conduct, Anti-Bribery and Corruption Policy and Whistle-Blower Policy, accompanied by additional policies like Third Party Management Policy, Gift, Entertainment and Hospitality Policy, Interaction with Public Officials Policy, Conflict of Interest Policy, etc. in order to disseminate detailed principles and guidelines emanating from the core policies.

SDIPL has introduced a dedicated Ethical Hotline for employees and other stakeholders to report any actual or potential violation of SDIPL's Code of Conduct or any unethical or illegal behaviours. Concurrently, to review and address the complaints, SDIPL has also set up an Ethics Committee.

## Core Governance Policies

### Code of Business Conduct and Ethics

SDIPL's expectations and commitment with respect to business ethics and compliance are contained in the Code of Business Conduct and Ethics. It provides guidelines with regard to various aspects of ethical business conduct and the right behaviours expected.

The Company is in the process of adopting the Code of Conduct for Board and Senior Management Personnel pursuant to the requirement of Part D of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

### Whistle-blower Policy

SDIPL's Whistle-blower Policy is adopted to ensure that an independent and effective reporting system is available to our employees and third parties to provide open channels of communication and foster a culture of integrity and ethical decision-making. The Policy accommodates anonymous disclosures and prohibits retaliation or intimidation against the Whistle-blower.

The Board has duly adopted a Whistle-blower Policy ("Policy") which facilitates the stakeholders to have direct access to the management, to report concerns about any unethical behaviour, actual or suspected fraud or violation of the Company's Code of Business Conduct and Ethics ("Code").

The Board has also constituted an Ethics Committee pursuant to the said Policy.

Adequate safeguards are provided against victimisation to those who avail of the mechanism and direct access to the Chairperson of the Board is provided to them.

### Anti-bribery and Corruption ("ABC") Policy

This Policy is aimed to provide guidance to understand, analyse and act in situations where there is a potential ABC related risk. It reiterates SDIPL's commitment of not paying bribes in furtherance of business objectives and also sets the expectation that no one acting for or on behalf of the Company is allowed to either pay or accept bribes.

### Code of Conduct for Prohibition of Insider Trading

At SDIPL, we are in compliance with the applicable provisions of the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015, as amended from time-to-time and have adopted the Code of Conduct for Prohibition of Insider Trading to monitor the compliances. Your Company has also implemented the Structured Digital Database platform to monitor the sharing of the price sensitive information of the Company in compliance with the aforesaid regulations.

### Risk Management Policy

The Company has in place a Risk Management Policy which provides for a robust risk management framework to identify and assess risks such as operational, financial, regulatory and other risks. There is an adequate risk management infrastructure in place, capable of addressing these risks.

### Internal Financial Controls

The Company has adequate internal financial controls commensurate with the size of the business and nature of our operations, designed to provide reasonable assurance with regard to the accuracy and completeness of the accounting records and timely preparation and provision of reliable financial statements.

### Corporate Social Responsibility ("CSR") Policy

Pursuant to section 135 of the Companies Act, 2013 ("Act"), the Board of Directors of your Company has approved and adopted a CSR Policy and the same is available on the website of the Company i.e. [www.summitdigitel.com](http://www.summitdigitel.com). During the period under review, the Board, at its meeting held on February 11, 2022, approved and adopted the amended CSR Policy to include reference of Board in place of the committee, pursuant to the dissolution of the CSR Committee in compliance with the provisions of the Act and circulars issued thereunder.

The purpose of the CSR Policy is to articulate what CSR means to the Company, the kind of projects to be undertaken, the broad areas of intervention, the approach to be adopted to achieve the CSR goals and a monitoring mechanism. This policy is aligned with our Company's objectives, principles and values, for delineating its responsibility as a socially and environmentally responsible corporate entity. This document is also an attempt to showcase the linkage of our social objectives with business strategy.

## Human Resources

Employees of Summit come from different organisations that have varied cultures, values and ways of working. Hence, there was a need to create Summit's own unique identity, its singular purpose of existence and a set of guiding principles which are the bedrock of its foundation. With this aim in mind, the leadership team at SDIPL got together to derive the **Vision, Mission, Values and Culture Pillars ("VMVC")** for SDIPL. The objective was to co-create the very foundations on which we will build SDIPL and the values for which our organisation will be known, both internally and externally. There have been multiple initiatives around this that have been planned and implemented, including a 'Train the Trainer' workshop to train the participants to cascade the VMVC to all employees across the organisation.

At SDIPL, we believe that people are our biggest assets. Given the fact that our employees are working across the country, it becomes imperative that there is a strong focus on engagement of employees on a regular basis.

We opened 3 offices in the last financial year – our corporate office in Mumbai, circle offices in Gujarat (Ahmedabad) and Maharashtra (Pune) and Goa. In the next couple of months regional offices in the North (Delhi), South (Bangalore) and East (Kolkata) will get operational.

At SDIPL, we believe that people are our biggest assets. Given the fact that our employees are working across the country, it becomes imperative that there is a strong focus on engagement of employees on a regular basis.

## Environmental, Social and Governance Overview

SDIPL believes that building and sustaining a responsible business goes beyond fulfilling mandated regulations and directives. The Environmental, Social and Governance (“ESG”) tenets guide your Company’s vision and a value that trickles down each of the business’ operations and undertakings. Your Company strives to minimise the environmental impact of the business’ operations and improve the efficient use of resources through sustainability and renewable energy solutions. Your Company supports the global goal of achieving zero greenhouse gas (“GHG”) emissions by 2050. On this front, your Company is in the process of formulating a plan in association with the business partners to upscale the use of solar energy at SDIPL sites. This will not only improve energy efficiency but also reduce GHG emissions. Your Company’s focus areas shall minimise GHG emissions falling under SCOPE 1 and SCOPE 2 segments. HSSE is at the core of your Company’s business operations, and the entire team is committed to driving the safety plan. Your Company operates with leading health and safety practices to support the goal of zero serious safety incidents. Your Company believes that all incidents are preventable, and takes on the responsibility that everyone working for and on SDIPL’s behalf reaches home without as much as a nick. In line with 24x7 business requirements and imminent HSSE risks, your Company’s focus lies in ensuring safe road travel and safe working at heights for all the employees concerned. In addition, your Company wants each of SDIPL’s members to be in good health, both physically and mentally. As a company that started operations in the middle of the pandemic, SDIPL has been involved in various aspects of COVID assistance for employees and their families. Your Company partnered with

healthcare service providers and local authorities to organise mass vaccination drives across India open to all. SDIPL also teamed up with various healthcare organisations for basic testing, diagnostic and medical assistance to employees and their families. To assist SDIPL’s teams and their families for the immediate procurement of oxygen infrastructure, oxygen concentrators were acquired and made available for SDIPL’s members. Your Company had also developed a medicine aggregation system collected from patients that had already recovered in a central repository. As much as our discussions tether around safety, your Company is equally focused on fostering a positive work environment for its members. Respect for human rights, valuing diversity, and zero tolerance for workplace discrimination, violence, or harassment are non-negotiable facets of our culture.

Moreover, being a good corporate citizen is an integral part of maintaining the high-growth ecosystem, which is why your Company also supports philanthropy and volunteerism among employees. Your Company operates with the highest standards of ethics and professionalism and strives to uphold strong governance practices. Conducting business activities by following a Code of Business Conduct and Ethics is of paramount importance to us. The Company sees its stakeholders as the co-creators of our vision, and therefore, we maintain strong relationships with them through transparency and active engagement. To build a solid platform for strong corporate governance, your Company has fortified systems in place. Your Company’s governance protocols include policies and procedures around Anti-Bribery Anti-Corruption (ABC), Code of Business Conduct, Prevention of Sexual Harassment, HSSE, CSR, Whistle-blower program including an Ethics Hotline, Governance Committees, and Cyber Security measures. As we step into newer thresholds of growth, SDIPL will continue reinventing through which we can keep adding value to the lives of our employees, communities, the environment and society at large.

## ANNEXURE II TO THE BOARD'S REPORT

### PARTICULARS OF ENERGY CONSERVATION, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO REQUIRED UNDER THE COMPANIES (ACCOUNTS) RULES, 2014

#### A. Conservation of Energy

##### (i) Steps taken for conservation of energy:

Summit has been focusing on providing best in class digital infrastructure experience to its customers in a highly innovative and sustainable manner. The engineering and design of field infrastructure has been optimised to ensure environmental friendliness while setting highest service delivery standards in the industry. Energy has always been an area of high concentration to ensure service deliveries at lowest cost. The Company has deployed Lithium Ion battery banks as energy storage devices and power backup systems at all its tower sites not only to reduce its dependence on Diesel Generated power but also improve grid power utilisation. This in turn has enhanced uptime availability and reduced operating cost.

Showing its concern towards protection of environment, we have extensively worked on maximising deployment of renewable sources of energy such as solar cells across length and width of the country. Company is headed towards making its tower portfolio Diesel free in near future through leveraging latest technological intervention such as use of Green Hydrogen Cells and other renewable sources of energy to power up the telecom equipment specially at remote sites where availability of grid power is still a challenge.

The Company recognises the importance of energy conservation in decreasing the adverse effects of global warming and climate change. The Company carries on its activities in an environmentally friendly and energy efficient manner.

##### (ii) Steps taken by the Company for utilising alternate sources of energy:

During the year under review, the Company has extensively worked on uses of solar cells for deployment as alternate source of power on its tower sites. As a result of these efforts, the Company today has good number of sites powered by solar energy in many of its circles. This initiative is bringing down the cost and started to deliver on promise of a clean energy future by replacing fossil fuel and offering the benefit of lower emission of carbon and other types of pollution.

The Company is extensively studying deployment of other clean energy sources such as Green Hydrogen cells, etc. to control emission of Green House Gases and minimise damage to environment.

##### (iii) The capital investment on energy conservation equipment: Nil

#### B. Technology Absorption

**(i) Major efforts made towards technology absorption:** The Company has not entered into any technology agreement or collaborations.

**(ii) The benefits derived like product improvement, cost reduction, product development or import substitution:** Not Applicable.

**(iii) Information regarding imported technology (Imported during last three years):** The Company has not imported any technology during the last three years.

**(iv) Expenditure incurred on research and development:** Nil

# CORPORATE GOVERNANCE REPORT

## Summit's Philosophy on Code of Governance:

Summit fully subscribes to the principles and spirit of Corporate Governance. The Company has adopted transparency, disclosure, accountability and ethics as its business practices. The management believes that these principles will enable it to achieve the long-term objectives and goals. As part of its Corporate Governance philosophy, Summit focuses its energies in safeguarding the interests of its stakeholders by utilising its resources for maximum benefits.

## BOARD OF DIRECTORS

### Composition and Size:

The Board is entrusted with an ultimate responsibility of the management, directions and performance of the Company. As its primary role is fiduciary in nature, the Board provides leadership, strategic guidance, objective and independent view to the Company's management while discharging its responsibilities, thus ensuring that the Company's management adheres to ethics, transparency and disclosures.

The Board operates within the framework of well-defined responsibility matrix and is duly supported by the senior management, while discharging its fiduciary duties and in ensuring effective functioning of your Company.

Detailed profile of the Board of Directors of your Company is available on the website of the Company i.e. [www.summitdigitel.com](http://www.summitdigitel.com).

### Change in Composition:

During the year under review, there were no changes in the composition of Board of Directors of the Company. However, after completion of the financial year, the Company has appointed Ms. Pooja Aggarwal (DIN: 07515355) as an Additional Non-executive Director w.e.f. May 23, 2022, subject to approval of the shareholders of the Company at their next general meeting.

The composition of the Board is in compliance with the requirements under the Companies Act, 2013 ("Act"). However, pursuant to the applicability of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 ("SEBI Listing Regulations"), the Company is required to reconstitute its Board. Accordingly, your Company is in the process of re-constituting its Board to ensure compliance with all the applicable laws within the prescribed timelines.

## Board Evaluation:

Since Summit is a private limited company pursuant to the Act, the disclosure on annual evaluation of the performance of the Board is presently not applicable to the Company.

The Directors are not related to each other in terms of the definition of "relative" under the Companies Act, 2013.

## Board Meeting:

The Board meets at regular intervals to discuss and decide on strategies, policies and reviews the financial performance of the Company.

During FY2021-22, the Board met 8 (Eight) times and the meetings conducted through Video Conferencing ("VC") were in compliance with the Act and relevant circulars issued by Ministry of Corporate Affairs ("MCA").

The requisite quorum was present in all the Meetings. The intervening gap between the meetings was in accordance with the provisions of the Act, the SEBI Listing Regulations and the Secretarial Standards issued by the Institute of Company Secretaries of India.

Board Meetings are pre-scheduled and a tentative annual calendar is circulated to the Directors well in advance.

However, in case of urgent business need, the Board's approval is either taken by passing circular resolutions, which are noted and confirmed in the subsequent Board Meeting or by convening the meeting at shorter notice.

In line with our sustainability vision and with a view to reduce paper consumption and leverage technology, paperless mechanism of conducting meetings has been adopted by the Company and the meetings are conducted through a web-based application. The said application meets high standards of security and integrity required for storage and transmission of data.

Notice and agenda, including the detailed notes on the matters to be considered at the meeting, in terms of the Act and the SEBI Regulations, are circulated to all the Directors within the prescribed timelines, by uploading on the web-based application.

Further, 8<sup>th</sup> Annual General Meeting ("AGM") of the Company was held on September 27, 2021 through VC, in line with the applicable provisions of the Act and relevant circulars issued by the MCA.

## ANNEXURE A

### CERTIFICATE OF COMPLIANCE WITH THE CORPORATE GOVERNANCE REQUIREMENTS UNDER SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015

To,  
The Members of  
**Summit Digital Infrastructure Private Limited**  
**(formerly known as Reliance Jio Infratel Private Limited)**  
(CIN - U64200MH2013PTC375466)

We have examined the compliance of applicable conditions of corporate governance by Summit Digital Infrastructure Private Limited ("the Company") for the year ended on 31 March 2022 as stipulated in Chapter IV of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 pursuant to the Listing Agreement of the Company with Stock Exchanges.

The Management along with the Board of Directors are responsible for ensuring the compliance of conditions of corporate governance as stipulated under the Listing Regulations. This responsibility includes the design, implementation and maintenance of internal controls and making requisite disclosures and filings with the stock exchanges from time to time as stipulated in the Listing Regulations.

Pursuant to the Securities and Exchange Board of India Circular dated September 7, 2021, Regulations 15 to 27 of Chapter IV of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations 2015 have become applicable to the Company on comply or explain basis till March 31, 2023 and on mandatory basis thereafter. Accordingly, in our opinion, and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the requirements of Corporate Governance, as applicable, under the aforesaid regulations and pursuant to the Listing Agreement of the Company with Stock Exchanges.
